THE GAZETTE.

OCTOBER 3 1888

THE Mrs A. W. Bailey of Denver were in the city yesterday.

The College Base Ball Club will meet the High school club on the ground in front of the High school building next Saturday

The city placed a fine new steel cross ing over the irrigating ditch on Tejon street yesterday They are a great im provement on the old boards

Reserved seats are now on sale for the return engagement of Haverly's min strels at the opera house next Friday Popular prices of admission will be charged

El Paso lodge No 13 A F and A M will meet in special communication this evening at Masonic hall for work in the third degree Visiting brethren in good standing are cordially invited

Accompanying President Slocum, of Colorado college, who arrived in the city on Saturday last, were a number of young gentlemen from the east who will attend the school during the winter

The school board yesterday let the contract for heating the high school building by steam The old hot air flues have become useless and really dangerous so it was thought desirable to make the change The house will be heated by the Hoosier boiler, the same as used at the Garfield building

The prohibitionists of El Paso county are called to meet in court house hall, Colorado Springs, on Friday next October 5th, at 3 p m, for the purpose of nominating candidates for county officers and such other business as may come before the convention There will be a public meeting in the evening when John Hipp and others are expected to be present

To-morrow morning, twenty minutes past 10, the special excursion train over the Denver & Rio Grande railroad leaves for Leadville Round trip tickets good for two days, taking in the great sale of lots in "Garfield Place," as well as the state fair, only $1 00 Thursday will be one of the most interesting days of the fair, and doubtless very many of our citizens will attend.

A few days ago we noticed the fact that Mr Albert E Pattison had resigned his position as assistant solicitor of the Colorado Midland railway He has made up his mind, we are glad to announce, to open a law office in this city For the present he will be found in the Hon John Campbell's office Mr Pattison has a high reputation as a sound lawyer throughout the state, and will be a very valuable addition to the legal fraternity of this city.

The Young Men's Republican club have ordered 150 handsome campaign uniforms These uniforms will arrive on next Tuesday and by that time the marching club will be organized All republicans desiring to become members of this club are requested to give their names to some of the officers of the club. At a meeting of the executive committee last even ng it was decided to allow any person to become a member of the club upon payment of the usual initiation fee and dues, without going through the form day of election The club now has a membership of nearly two hundred and before the end of the month it is hoped that the membership will double itself

The San Juan Prospector has the following regarding two enterprising Colorado Springs men, and shows that Del Norte is alive to the times. Messrs S T Wicks and G S Holmes of Colorado Springs, have been in Del Norte this week making an estimate on putting in water works for Del Norte While our water supply is the best and purest in the valley, there are the very best of reasons for making it still better if we can do so This would seem possible by putting in a system of water works The gentlemen referred to favor the stand pipe system, and have submitted a proposition to our people The Prospector favors public improvements and if the matter of expense is not too great and the bonds can be floated, we believe it [illegible] day. Holmes and Wicks will make the town an offer, and some action will be taken soon Del Norte will doubtless soon be at work putting in a system of water works"

The appearance of Alfred P Burbank at the Congregational church last night for the benefit of the G A R post of the city was a very great success A large audience filled the church and list ened throughout the recital swayed by the incomparable genius of the artist [illegible] Introduced at first and the retirement of Murdoch, there perhaps no one on the American stage to compare with Burbank in the field of monologue The programme elected for last night's performance was varied with humorous and pathetic pieces, though he excelling the humorous The sixth piece on the programme was the "Return of the Hessians to Long Island" which Mr Burbank recited the evening on December 6th 1776 The scene from Hamlet and recitations of Jefferson as "Rip Van Winkle" were very good Mr Burbank will be warmly welcomed when on her return to Colorado [illegible]

Haverly's minstrels will play a return engagement at the opera house next Friday evening An exchange in speaking of the company, says There is not a particle of exaggeration in the assertion that Haverly's minstrels as at present [illegible] of the kind on the face of the earth The acrobatic jokes and the many gems which have been so long, and [illegible] identified from the modern minstrel stage, have been entirely expunged from the [illegible] and replaced by the most refined [illegible]

Hessian dragoons executed by eighteen members of the company, and com manded by Frank Cushman Incidental to this performance the world's champion dancers, Rowe and Doyle, introduce their latest creation in an original novelty entitled "The Power of Music" The act is pleasing and well worth admiring

Miss Nina Van Zandt, who married Spies the anarchist, just before he was executed has doffed her mourning and is ready for a new sensation

The Globe Democrat thinks there is a chance for the republicans to carry Missouri When Missouri moves to make it unanimous there is no need of an election

The Mexican National will open up direct communication between this state and the City of Mexico, via the Denver, Texas and Fort Worth Heretofore, those who wished to go to Mexico were compelled to Denver at La Junta and put

One of the most remarkable political changes is in New York The Hon. Thurman A Merriam now representing the eleventh New York district in congress as a democrat has withdrawn from the party, and will no more act with the republican party. He will be a candidate for re election and it is expected that he will have enough protection democratic votes to carry him through

The council intends to try the experiment of using the hydrants for watering the streets. The experiment is well worth trying and we hope it will be a success If it is not some arrangements ought to be made to put on more cars and fully water at least one of the streets running north and south to use for driving Unless something is done pretty soon we fear that we shall not have much room left for news, as we hear a good many of our readers are preparing further letters on this subject

We print the annual report of the secretary of the Woman's Exchange The report shows that the institution has been very successful It is not a charity, but simply offers an opportunity for women to do something for their own support There are a great one hundred and ten consignors which shows how extensive the help is which this institution renders The financial report shows that from November 2 1887, to October 1, 1888 $2,105.58 were deposited Of this $2,105.58 has been paid to consignors $2,787.87 for household expenses, and there is a balance on the book of The Exchange should receive the cordial support of all who wish to help others to help themselves

At the meeting of the committee of the board of trade, yesterday the 22nd of October was selected as Farmers day one of the days In connection this day is to be a the farmers and the merchants together to talk over the best way to help the farmers Let every farmer who can come to Colorado Springs on that day and bring with him a load of produce of any kind for a free exhibition Let those who cannot come send samples to be on exhibition The Athletic grounds will be secured for the exhibition of stock and farm products We hope our ranchmen will take pride in showing their best products It will help them as well as the county at large. Possibly the railroads could interest themselves so that arrangements could be made for the shipping of papers on fruit culture by the most successful fruit growers also a paper on timber culture and other subjects interesting to farmers. A paper giving accurate and reliable statistics regarding the limit of the cultivation of land without irrigation on the divide, would be of especial value

A Suffering Brother

Colorado Springs October 3 1888

To the Editor of the Gazette.

I have been much interested in the communications on the subject of the cut worm and do not in the least I left my ranch in search of health for a month and my friends out there have advised me not of the most beautiful scenes in Colorado While sitting on the piazza of the hotel this morning I noticed a cut worm in close contact with a new power which climbs its way into every crevice of the house, tells the funniest literature and threat If we are so inconvenienced during the rainy season how much worse have our condition be during the long months when no rain falls

It has been such a serious drawback to our health and pleasure that I suggested over a year ago that a watering cart be placed on our avenues by private subscription and I hope ours will follow in a healthy public sentiment in favor of sprinkling the streets shall be secured

The meeting of the Southern Exposition Association at Louisville Ky was largely attended Governor Buckner presided

Stock Markets.

New York, October 3 The stock market was heavy but small in volume and unsettled, near the close heavy yesterday made further progress towards the lowest figures generally established There was a small demand to cover on short sales but the market was left to sell off until a settlement of the wheat deal and the effect of the other questions of the finance of world shall have been sharply taken Trading in the bears accordingly had everything in their own hands but the list displayed a marketable recuperative power whenever the pressure was lifted and by the time the call began to circulate the feverish condition of the market was in a great measure gone Oregon Improvement showed sharp gains on very moderate business The close was dull but firm
